

Social Distortion, Playpen

When the cat's away, the mice will play
Beer and drugs and things to say to you,
To you lots of girls and lots of boys
Loud music and all the toys we need, we need

[Chorus:]

We have to go the neighbors have complained
We have to go the walls have all been stained
They have to know they cant stop us now
They have to know we could burn this town

Old men and kids on the run missing teeth
And now the damage is done,
It's all been done losing battles, losing fights
The police would love to take away our rights, our rights

[Chorus]
