

Socialburn, Feel Free

Seems like all my time has been wasted
Anticipating your return
But if I could have it back
I'd probably just waste it
Again
For you
But you come and you go
Like the cold wind blows
And you expect me to treat you like a queen
Well I have to complain
This is not how it goes
This is my life
It's not your dream
Anymore

[Chorus]
So feel free
To let me wonder
So feel free
Cause I'll go under
For you
It's not me
But it's my problem
So feel free
So feel free to feel for me

(feel free)

So many times have I called
So many times you've ignored
Why cant I see the way that you are
But I've seen birds in the trees
They cling just like me
Cause they can't fly away from everything
Like you do

[Chorus]
