Socialburn, Never Be The Same

She came around I saw it in her face Another time, another place Is what she wanted She let me go So she could face this world alone To find out where she belongs She said I'm sorry

(Bridge)

Ànd I dídn't know what should have happened Yeah, I didn't know that I had a chance to say

(Chorus)
Please don't go away
Cause I will never be the same
I will never be the same
Please don't go away
Cause I will never be the same
I will never be the same

She came around
About a year after she was gone
I was passed out in her yard
I can't live without her
Just when I thought I'd taken more than I could stand
Well she took me by the hand
And said I'm sorry
I didn't know what should have happened
I didn't know she was gonna say

(Chorus) (Lead break) (Bridge) (Chorus x2)
