

Socialburn, Rain On Me

You go to sleep by yourself
cause you hold yourself like nobody else.
What can I do to make you see
just how perfect you are to me.

The cold blows the wind over my head
You rain on me
all your pain and suffering
the times you rain on me
I wish everybody can see
the cold blows the wind over my head

Your scared cause your in the cold
and your scared that you might go back home
cause home has never been so great
its a place you love to hate

The cold blows the wind over our heads
When you rain on me
all your pain and suffering
the times you rain on me
I wish everybody can see
The cold the wind
out of sight
The cold the wind
out of sight
When you rain on me
all your pain and suffering
the time you rain on me
I wish everybody can see
but you rain on me
all your pain and suffering
the times you rain on me
I wish everybody can see
The cold blows the wind over our heads

you go to sleep by yourself
cause you hold yourself like nobody else
What can I do to make you see just how perfect you are to... me
