

Socialburn, Stacy

She'll take you down she'll spin you round
She'll make your head explode
Like no one else in town will
But turn your back she'll walk away
She'll make you want to stay
Like no one else in town will

(Chorus)

Watch out your head will explode
Watch out your head will explode
Watch out your head will explode

She'll get you drunk
She'll make you drive
She'll make you want to stay alive
Like no one else in town will
She'll smoke you out
She'll get you high
She'll make you want to die
Like no one else in town will

(Chorus)

(Lead break)

(Chorus x2)
