

# Society 1, Me

There is nothing inside of me  
Except my hate voyeur society  
I hate all the people that I see  
I'll hate you even though you worship me

You can't get rid of me  
You'll want to hear what I just said  
Yes that's me I'm in your head  
I'll be there until you're dead

There is nothing I'd rather be  
More than this violent freak atrocity  
Listen and look at what you see  
And blame all the pain inside on me

You can't get rid of me  
You'll want to hear what I just said  
Yes that's me I'm in your head  
I'll be there until you're dead

You are so empty  
So dead and empty  
Forever empty  
You are so empty  
Worship me

You can't get rid of me  
You'll want to hear what I just said  
Yes that's me I'm in your head  
I'll be there until you're dead
