

Soda, Shine Down

Out towards the ocean, we rowed our boat
The winds were getting stronger, the night drawing close
But out towards the ocean, we knew the call
So out towards the ocean, we set our path

Shine down on us
Shine down on us
You got to find it before the storm
Can't you see we got to feel it, to find our way home

Past the sight of land, it gets a little deeper
Thought of turning round, haunt us day and night
But out towards the ocean, we knew our call
So out towards the ocean, we set our path
