

# Sodom, Among The Weirdcong

seems like dead men want to leave their graves  
point to anything they love to hate  
broken skulls reflection all around  
execution, blood beneath the walls

aggressive jungle war  
breaking through the lines  
slaughter according to your evil rites

your death will be methodic  
gonna lose my way  
among the weirdcong  
machine gun fire chain reaction  
shredded brains  
among the weirdcong

antipathy to the gloating face  
dissection til your soul will leave again  
impact shock absorbs my energy  
bullets cutting through the rotten meat

aggressive jungle war  
breaking through the lines  
slaughter according to your evil rites

your death will be methodic  
gonna lose my way  
among the weirdcong  
machine gun fire chain reaction  
shredded brains  
among the weirdcong

your death will be methodic  
gonna lose my way  
among the weirdcong  
machine gun fire chain reaction  
shredded brains  
among the weirdcong

emotions died, extinguished deep inside  
impurity made blood turns into wine  
when i saw my friends impaled to death  
dishonoured and condemned their strength

aggressive jungle war  
breaking through the lines  
slaughter according to your evil rites

your death will be methodic  
gonna lose my way  
among the weirdcong  
machine gun fire chain reaction  
shredded brains  
among the weirdcong...
