

SoDrumatic, Good Times (feat. Wozz Lozowski)

Echo from the road
Giving thrill for a Chance to go
My heart's beating strong
But I don't wanna stay you alone
That's why I need your love
Coz when you around
the fire doesn't burn that much
my spirit is wide open
all it's about
let's dance till we bring heavens down

you've got to love
got to make it feel right
bring that joy in the eyes
like a love
that we overdose life
chasing down
chasing us

come on now
don't you say
come on now
oh noy

And I know I want spend time with you

So we're asking
spirits .for . right
But the ...
really just depends on us
That's why I need your love
Coz when you around
the fire doesn't burn that much
my spirit is wide open
all it's about
let's dance till we bring heavens down

you've got to love
got to make it feel right
bring that joy in the eyes
like a love
that we overdose life
chasing down
chasing us

come on now
don't you say
come on now
oh noy

And I know I want spend time with you
