

# Sofia Loell, Come A Little Closer

Oh oh oh yeieieieh

Take away my pain , I beg you  
take away my tears  
make me smile again and laugh with me  
when I chase away my fears  
'cause you're my happy thought baby  
what makes me come around  
touch me one more time  
I am yours to be found

oh oh oh, so come a little closer baby  
oh oh oh, let's make a little lovebaby  
oh oh oh...

take away my pain I beg you  
take away my tears  
sweep me of my feet and dance with  
when I dance away my fears  
cause you're what makes me fly baby  
what makes me  
touch me one more time  
I am yours to be found

ohohoh...

for every dream we share  
for everything that's true  
you'll never see me cry again  
It's all because of you  
The future lies before us  
It's there for us to take  
no nothings more important  
than the music we can make

oh oh oh come a little closer baby  
oh oh oh yeieieieh...
