

# Sofie, Don't You Miss Me Too?

been alone this days without you  
nothing in this room passes through  
been angry without you  
that it's all about the truce  
right there  
you can't take all the breathness  
you can't make all the madness  
i miss you way too much  
by the way we kiss and touch  
you used to say  
you're not gonna leave me today anyway  
you can't argue  
why this all comes true

don't wanna see me cry  
i'd rather see my tears die  
it can't make me fall  
when all this towers are big and small  
you don't know why it happened  
that's way too grewed  
but i miss you  
don't you miss me too?

been wrong all this years without you  
been right about the untrue  
you can't speak without me  
why can't i see  
you do know how to love just for me  
lately no other realities  
can't forget the days i hated you  
let it all pass through first

don't wanna see me cry  
i'd rather see my tears die  
it can't make me fall  
when all this towers are big and small  
you don't know why it happened  
that's way too grewed  
but i miss you  
don't you miss me too?  
don't wanna see me cry  
i'd rather see my tears die  
it can't make me fall  
when all this towers are big and small  
you don't know why it happened  
that's way too grewed  
but i miss you  
don't you miss me too?

keep it down miss  
keep it low  
i can hear you  
you say that words to that lady  
so you'll reach me  
you'll push me away with you

(guitar break)

don't wanna see me cry  
i'd rather see my tears die  
it can't make me fall  
when all this towers are big and small  
you don't know why it happened  
that's way too grewed

but i miss you  
don't you miss me too?  
don't wanna see me cry  
i'd rather see my tears die  
it can't make me fall  
when all this towers are big and small  
you don't know why it happened  
that's way too growed  
but i miss you  
don't you miss me too?  
don't wanna see me cry  
i'd rather see my tears die  
it can't make me fall  
when all this towers are big and small  
you don't know why it happened  
that's way too growed  
but i miss you  
don't you miss me too?
