Girl like to marry
Save up all your USD's for British universities

Cut to the chase, you're a big disgrace
With a skip and a beat and you're in this place
If you'd have known better then you'd have written a letter
Complaining all the time about the dull, rainy weather

I don't know if...this what you this what you've come for
I don't know if...this what you're this what you're looking for

Go go away
You know we've changed
So much more than your playground
You'll be safer stay uptown
