

Solabeat Alliance, All Or Nothing

Beating your own track better than a jam hack,
Follow in the footsteps of other men,
Kick it like the rat pack rock it then we kick back,
Dance again and again and again,
Breaking it down all around with a little help we sing this song,
People come with the beat in their stride and a felling that's never wrong

And now we all sing it's all or nothing,
Forever running, we'll never crawl,
And now we all sing it's all or nothing,
That's life in the fast lane,
Together we never will fall

Looking ahead just running for the light trust all the commotion inside your head,
Progress is made by thinking positive,
Eyes focused on all of the paths we tread,
Breaking it down all around and i say one and all we're strong,
People come with the beat in their stride and thats never wrong singing

One love one notion,
One love never fade,
One love one notion,
Every time that music's played
