

# Solabeat Alliance, Come Loud

Wake up your mind!  
Wake up your soul!  
Fire Fire Fire we control,  
Coming up loud people of the world,  
Emergency, we let the bass line....  
Way way back in 1992,  
I took a hit from the sound of something new,  
System attack it was in me like fever,  
We come together with a stereo receiver,  
One love and i think i touched the sky, one life and one million ways to die,  
Ram it up everybody let go, Flow from the mic i never felt so

High, I think i touched the sky,  
Feeling so alive, people of the sun come loud

Rockin up the rhythm of a dreadlock nation,  
Increase the pressure we got the vibration,  
No weight on my mind,  
Everything's gonna be just fine,  
Like a new day like a new beginning, killer sound hit,  
Your head starts spinning,  
Ram it up everybody let go, flow from the mic i never felt so high...
