

# Solange, Wonderland

[Verse 1:]

Some people say that life is full of pain  
But I look at life as it were a flower  
Taking all the good instead of all the bad  
And turning it around with what we have  
And everything we do  
And everything we say soon will all become what we have made  
When walking out your door remember there's much more  
So why don't you just...

[Chorus:]

Come on won't you ride with me  
I'll take you on a fantasy  
We can get along in this wonderland

[Verse 2:]

Beautiful is more than just words can say  
But I can explain how it holds its power  
Remember every dream that kept you in your sleep  
The places you would go, you've never been  
And everywhere we go, everything we do  
Soon it all becomes a part of you  
When wishing on your star, remember who you are  
So why don't you just....

[Chorus x2]

[Bridge:]

Beautiful, whatever it takes  
Life, if whatever you make  
Sometimes it's never enough  
Just when you think it's enough  
Come and go with me  
There's no problem here  
Come and go with me  
Let yourself be free

[Chorus x2 till fade]
