Solex, Close To The Edge

ohh ohh ohh
ohh ohh
Up close to the edge.
I wanna fall all the way down.

Up close to the edge
Open my eyes
Qalk straight ahead
I wanna fall
All the way down
I'm gonna run
When i hit the ground

Do u feel for me what i feel for u
Now ur turning on this electricity
Running through my veins, pulse begins to race
Come and satisy my curiousity
Keep imagining what it would be like
Got the power to make this reality
You're so close to me, almost taste ur lips
Flying high, cant u feel its intensity

Only one way to go when you're on the outside looking in
Tell me what i need know
Dont recognise my own reflection when im in this state of mind
State of mind

Up close to the edge
Open my eyes
Walk straight ahead
I wanna fall
All the way down
I'm gonna run
When i hit the ground

You're takin me,
close to the edge
open my eyes
walk straight ahead
i wanna fall
all the way down
im guna run
when i hit the groooouuuund

im close to the edge....
i wanna fall all the way down....
im close to the edge.....
i wanna fall all the way down....

are u reading me like im reading u
are we transmitting on a new frequency
hear it loud and clear
message understood
chain reaction cuz we gotta chemistry
now im standing here with my world below
body's shaking is this how its meant to be?
but im not afraid cuz im not alone
hear u breathing i feel u inside of me
