

# Solstice, Cimmerian Codex

Forgive me father (for I have dreamed)  
Of nighted vales, betwixed time and light  
Still falls the rain, silent, unclean  
Unfettered, unleashed, I sought the gate  
Lascivious, beckoning, at the thresholds forbode  
Satyriasis vermivorous in shadow enloaked  
Frozen in antiquity (mocking cruelly)  
Terous in angle citadels profane  
Across yawning chasm of tribulation  
Farewell to Sol, in perpetuum rise  
(Ascension beyond) corporeal constraint  
Would the glaze of Algol sear my eyes?

Winds from the black mountain, rend and tear  
Sepulchral thanes, so much walking dust  
Icelocked the nexus, an empire awaits  
Axiom abhorent, protean triumvirate

Forgive me father (for I walk alone)  
To a destiny untained, opaque, my own.
