

# Soluna, Don't Wanna Live My Life Without You

Here we are  
Going back to the start  
When I thought we've come so far  
And I, I try  
Tried to make you understand  
I've done everything I can

Every night I'm losing sleep  
Tell me if I'm in too deep  
I'm going crazy  
I don't know what I should do  
To fight the risk of losing you  
Baby, I..I

Don't wanna live my life without you  
Can't go another night  
Without you  
Don't wanna live my life  
Without your love  
Without your love

There you go  
Hiding everything you feel  
Too blind to see what's real  
You forgot, everything I was to you  
The sun, the stars, the moon

I don't know what I've done wrong  
Tell me what's been going on  
Inside you lately  
I just wanna do you right  
I can't go another night, baby I...I

Don't wanna live my life without you  
Can't go another night  
Without you  
Don't wanna live my life  
Without your love  
Without your love

Don't wanna live my life without you  
Can't go another night  
Without you  
Don't wanna live my life  
Without your love  
Without your love

Don't wanna live my life without you  
Can't go another night  
Without you  
Don't wanna live my life  
Without your love  
Without your love
