

Soluna, So In Love

Like a dream
A childhood fantasy
You came to me
Swept me off my feet
Like paradise looking in your eyes
You take my breathe away
Baby, I'm here to stay

You make me feel special
You're all that I need and more
Fairy tales do come true
'Cause they did when I met you

The only time I ever fell
I fell for you
Now I'm so in love
So deep in love with you

When I'm with you
I get lost in time
When we're hand-in-hand
Our dreams intertwine
On and on
Like dirfing out to sea
Never-ending
You're all I need, oh

You make me feel special
You're all that I need and more
Fairy tales do come true
'Cause they did when I met you

The only time I ever fell
I fell for you
Now I'm so in love
So deep in love with you

The only time I ever fell
I fell for you
Now I'm so in love
So deep in love with you

You make me feel special
You're all that I need and more
Fairy tales do come true
'Cause they did when I met you

The only time I ever fell
I fell for you
Now I'm so in love
So deep in love with you
