

Soluna, Spanish Lullaby

I have always dreamed to find someone like you
No more lonely nights, I'll never make it through
Won't you say you will and fill this empty part
'Cause I've been searching for what's missing in my heart

My Spanish lullaby
For you are my Spanish lullaby
Your the star that lights my night
And with you, I'll make my dreams come true
Underneath the starlit moon

You're my Spanish lullaby
Come with me to a place
Come feel my warm embrace
There is so much I have to give
Come feel my passion rise
There's so much I have inside
So much more life you have to live

And I never will abandon what we shared
For I cherish every moment that you're near me
I will never let you shed a tear for me
'Cause every ounce of love I give to you

Your Spanish lullaby
I'll be your spanish lullaby
I'll be the star that lights your night
And I'll make your dreams come true
Underneath the starlit moon

...Spanish lullaby
Come with me to a place
Come feel my warm embrace
There is so much I have to give
Come feel my passion rise
There's so much I have inside
So much more life you have to live

You're my beautiful melody
No quiero estar sin ti
I can feel your love calling for me(for me)
Te amo(te amo) te quiero(te quiero)
My spanish lullaby
La, la, la...Oh...
Vivre por tu amor por siempre

You're my Spanish lullaby
Come with me to a place
Come feel my warm embrace
There is so much I have to give
Come feel my passion rise
There's so much I have inside
So much more life you have to live
