

Someone Still Loves You Boris Yeltsin, Dead Rig

I don't wanna keep up
I just wanna get stuck
I don't wanna get drunk
I just wanna get some

You're gonna lose it
If you don't choose it
You're gonna lose it
If you don't choose it

Yeah, you're right
But you'll be dead right
Yeah, you look all right
But you're dead right

Yeah, I know we're on a collision course
I know it sucks, and it just gets worse
I know, I know, I know

You're gonna lose it
If you don't choose it
You're gonna lose it
If you don't choose it

You're gonna lose it
If you don't choose it
You're gonna lose it
If you don't choose it

I don't wanna keep up
I just wanna get stuck
