

# Somersault, Way To Mars

Silence is your enemy  
When youre trying to tear  
Your bridges down  
Silence is your deepest fear  
But is the price you pay  
If you decide to stay  
But if you start to play  
The Game

Chorus:

Now its real  
Im on my way to mars  
Leaving twilight zone  
Lonely or alone  
Now its real  
Im on my way to mars  
Left an empty cosmodrom  
On my wy back home

Sundance, heavy gravity  
When your all alone  
It is time to go home  
Silence is your only friend  
When youre lost in space  
Will I be lost in space  
Why do I Have to face  
In the end

Chorus

Silence is youre only friend  
In the end  
On my way to mars  
On my way to mars  
On my way to mars

...
