Something Corporate, Konstantine

I can't imagine all the people that you know And the places that you go When the lights are turned down low And I don't understand all the things you've seen But I'm slipping in between You and your big dreams It's always you In my big dreams

And you tell me that it's over Wake up lying in a patch of four leaf clovers And your restless, and I'm naked You've gotta get out You can't stand to see me shaking No Could you let me go? I didn't think so

And you don't wanna be here in the future So you say the present's just a pleasent interruption to the past And you don't wanna look much closer Cause your afraid to find out all this hope You had sent into the sky by now had crashed And it did Because of me

And then you bring me home Afraid to find out that you're alone And I'm sleeping in your living room But we don't have much room to live

I had these dreams in them I learned to play guitar Maybe cross the country Become a rock star And there was hope in me that I could take you there But dammit you're so young Well, I don't think I care And if I hurt you Then I'm sorry Please don't think that this was easy

Then you'd bring me home Cause we both know what it's like to be alone And I'm dreaming in your living room But we don't have much room to live

And Konstantine is walking down the stairs Doesn't she look good Standing in her underwear And I was thinking What I was thinking But we've been drinking and it doesn't get me anywhere

My Konstantine came walking down the stairs And all that I could do was touch her long blonde hair And I've been thinking But it hurts me thinking that these nights When we were drinking no they never got us anywhere No

This is because I can spell confusion with a K And I can like it It's to dying in another's arms and why I had to try it It's to Jimmy Eat World and those nights in my car When the first star you see may not be a star I'm not your star Isn't that what you said What you thought this song meant

And if this is what it takes Just to lie with my mistakes And live with what I did to you All the hell I put you through I always catch the clock It's 11:11 And now you want to talk It's not hard to dream You'll always be my Konstantine My Konstantine

Konstantine, they'll never hurt you like I do No, they'll never hurt you like I do No, no, no no no no no no

This is to a girl who got into my head With all the pretty things she did Hey You know You keep me up in bed This is to a girl who got into my head With all these fucked up things I did Hey Maybe Baby You could keep me up in bed My Konstantine You spin around me like a dream we played out on this movie screen And I said Did you know I missed you? I miss you And then you bring me home And we'll go to sleep, but this time, not alone, no no And you'll kiss me in your living room I know I know you miss me in your living room Cause these nights I think maybe that I miss you in my living room

We don't have much room I said does anybody need that room?

Because we all need a little more room To live
