

# Something For Kate, Big Screen Television

Big screen television  
say no more  
switch it on and Ill see you in hell  
we got the good seats  
just look at the smiles on our faces  
right now  
right now  
we are the luckiest people in the whole wide world  
whole wide world  
whole wide world  
big screen TV  
in a glass house  
wanna lay down next to you and sleep  
but are you dreaming  
are you dreaming  
are you dreaming  
are you dreaming  
look at you tracing circles in the grass  
getting bigger and bigger and over and out  
we're almost ready to leave  
to follow the weather and go where the colour goes  
send a message to the birds that sing in the trees  
always awake before me and always louder than TV
