

Something With Numbers, On The Inside

On the outside you're caving in
On the outside your right
On the outside your right
On the outside you're coloured in
On the outside your right I will take everyday
Like it's my last But not for you

On the inside

On the inside Is what I like What I like
On the outside you're wearing thin
On the outside your right
On the outside your right
On the outside your bearing sin
On the outside your right I will take everyday
Like it's my last But not for you

On the inside

On the inside Is what I like
What I like
Wait for someone to look inside of you

Let go of the worst things about you
