

Sometimes Never, All Better Now

Can you hear, hear it in the air
Can you feel it, feel it on your fingers
Can you see, see it everywhere
Its surrounds us, its all around us

Im not goin to change
Just to make you happy again
Im not the one acting strange
Maybe its time for your
Medicine

It's all better now'

Can we dream, dream while were awake
can we live here, even though its over
Can we walk, walk two different paths
Like a candle burning from both ends

We cannot, ever be again
We can't expect it all to start over
We can't trust, trust ourselves with this
What's done is done, its all done

Swallow to make it stop
that I'm on my own
It's all better now'
