

Sometimes Never, Only Blue Skies

We sit here in love
The light shines down from above
But weather can change
Calm is the eye of the storm

I'll be around
While the sun is out
But when it rains down
I won't be found
I'll be with you
While the skies are blue
But when the grey comes
You and I are through

We are as one
The warmth flows from our skin
But seasons change
Like summer we'll soon fall

I've been here before
Been here in the rain
Waiting for the sun
To come and clear away
I've cried here before
Cried here in the rain
Begging for the sun
But it never came

I'll be around
While the sun is out
But when it rains down
I won't be found
I'll be with you
While the skies are blue
But when the grey comes
You and I are through
