

# Son By Four, Y

People say and I agree  
If something goes away  
And it returns it's yours for keeps  
But that is not working for me  
Every night and every day  
I realize that she possesses  
Power over me  
And only her eyes I can see

Chorus:

And I am just a fool that still believes  
In what she promised  
To be together till the end  
Damn not again  
Why I can stop this lie  
That everything's all right  
That we were gonna last forever  
Why it's easier to deny  
That all we had just die  
To forget you it's now or never

People say and I agree  
That with faith you can move  
A mountain mentally  
There's nothing real it's just a dream  
Every night and everyday  
Minutes become hours  
Days to months and you're not here  
My eyes are dry and no more tears

Chorus

I just wanna know  
Why this crazy thing to me just keeps on happening  
How can that love of my life  
Look into my eyes and tell me pretty lies  
I just wanna know  
Why this crazy thing to me just keeps on happening  
How can that love of my life  
Look into my eyes and tell me pretty lies  
I'm tired of the game  
But I just can't seem to tell you goodbye

Why I can stop this lie  
That everything's all right  
That we were gonna last forever  
Why it's easier to deny  
That all we had just die  
To forget you it's now or never

Tell me why
