

# Son Of Dork, Eddie's Song

Eddie kick started his career  
In summertime in Main  
Took his friends from school  
On a teen career break  
The moment that he took to the stage,  
His friends were blown away  
Always knew that geek apart  
I'm glad he'll live to see the day

Eddie's got 27 kids but he doesn't know  
Shame he'll never be around to see them grow  
Said he screwed a different girl after every show  
He was always way to drunk to remember though,  
Eddie doesn't know

And everyone's getting laid at the after party shows  
Everybody follows Eddie they just want him all alone  
So the girls help themselves, and takes off all their clothes  
Eddie says it's never easy, that is just the way it goes

Eddie's got 27 kids but he doesn't know  
Shame he'll never be around to see them grow  
Said he screwed a different girl after every show  
He was always way to drunk to remember though,  
Eddie doesn't know

She could never reason,  
He's all alone and he can't change  
Life is useless on the ----- go

To all the kids who don't look like their mum or dad  
Don't freak out don't let them make you mad  
It's fathers day with the love you have you should be glad  
Think about the little problem Eddie has!

Eddie's got 27 kids but he doesn't know  
Shame he'll never be around to see them grow  
Said he screwed a different girl after every show  
He was always way to drunk to remember though,

Eddie's got 27 kids but he doesn't know  
Shame he'll never be around to see them grow  
Said he screwed a different girl after every show  
He was always way to drunk to remember though  
Eddie doesn't know
