

# Sondre Lerche, Sleep On Needles

Ask me anything you like  
I'll reveal everything  
I will treasure the truth  
You could know anything  
I am but a fool to play  
Unaware of things  
If I treasured the truth  
I would tell it to you  
I'm coming down to tell you what I know  
To say what's real, to let you know  
Where I have been and how I've had to...  
Sleep on needles  
Am I likely to succeed  
With the way things are?  
Judging by your smile  
You're holding something back!  
I'm sleepless around midnight  
There's a change in the wind  
The remembrance of things  
You used to hold me back!  
I come around each time your notes are high  
To tear you down, and drag you up  
To let you know what's going on while I...  
Sleep on needles...  
instrumental  
And I sleep on needles  
You'll believe you are hard  
Sleep on needles  
And hear only the truth  
And hear only the truth...
