

# Sonia, Counting Every Minute

Counting every single minute  
Counting every single minute

My heart is beating double time  
My head is spinning out of line  
And if I acted like a fool  
Ain't it funny what love can do  
I'm getting through the best I can  
Trying to keep in control  
But I feel like I could fly  
'Cos I'll soon be by your side

Couting every single minute  
Every second, every hour too  
Counting every single minute  
Precious is the time when I'm with you

I feel as though we're out of time  
When I'm with you the minutes fly  
And every word you say to me  
Goes round my head eternally  
I try to use my common sense  
But I'm like a child with a toy  
It feels like a dream come true  
'Cos I'll soon be holding you

Couting every single minute  
Magic are the moments shared by two  
Counting every single minute  
Precious is the time when I'm with you

I'm getting through the best I can  
Trying to keep in control  
But I feel like a could fly  
'Cos I'll soon be by your side

Couting every single minute  
Magic are the moments shared by two  
Counting every single minute  
Precious is the time when I'm with you

Couting every single minute  
Every second, every hour too  
Counting every single minute  
Precious is the time when I'm with you

Couting every single minute  
Every second, every hour too  
Counting every single minute  
Precious is the time when I'm with you
