

# Sonic City, Walk Away

I remember that beautiful night  
the night you walked away  
on the street with a burnt out light  
in the pouring rain  
There's a world coming at you  
turn around I think it's here to stay  
and I remember that beautiful night  
the night you walked away from me

Girl I really got to let you know  
I really hate to see you go  
but I love to watch you walk away  
girl I really got to let you know  
I really hate to see you go  
but I love to watch you walk away  
walk away

I remember that beautiful fight  
the night you walked away  
all the tears of guilt you cried  
they poured like rain  
there's a world coming at you  
turn around  
I know it's here to stay  
I remember that beautiful night  
The night you walked away from me

Girl I really got to let you know  
I really hate to see you go  
but I love to watch you walk away  
girl I really got to let you know  
I really hate to see you go  
but I love to watch you walk away  
walk away

I'll make this better  
there's nothing more to say  
of all these pieces falling down  
I'll make this better  
There's nothing more to say  
of all these pieces falling down  
there's nothing more to say  
but walk away

Girl I really got to let you know  
I really hate to see you go  
but I love to watch you walk away  
girl I really got to let you know  
I really hate to see you go  
but I love to watch you walk away  
walk away
