

# Sonic Youth, Dude Ranch Nurse

Keep on runnin' in the dark  
Dude ranch dream is fallin' apart  
Stolen kisses let's pretend my friend  
You play sick and I will mend  
Let the action begin again my friend  
You be patient and I'll attend

Let's rehearse let's do it again  
Dude ranch nurse yr brand new friend

Let nurse give you a shot it's something to do  
Took my pulse  
Let nurse give you a shot it's something to do  
I could love you I could love you

Deep sleep coming along  
Like a newborn colt you found  
You're wrapping around the gauze  
Dizzy reminder  
Ouch she found

Let nurse give you a shot, don't slip too far  
I could love you  
I could have you

You be cowboy and I'll allow  
Let me ride you 'til you fall  
Let's pretend there's nothing at all  
Nobody knows the shape I'm in  
Kiss me now it's just a sin  
Nobody knows the shape I'm in
