

Sonic Youth, Is It My Body

[Sugar Cane CD5]

[Kim]

what have I got
that makes you want to love me
is it my body
or someone I might be
or something aside me
tell me
tell me
it's really up to you
have you got the time to find out who I really am
oh - aw

what does it take
to get inside your mind
give me your brain
and take a change with my first time
tell me
tell me
it's really up to you
have you got the time to find out who I really am
ooooooooohaaa

what have I got
that makes you want to love me
is it my body
or someone I might be
or something aside me
tell me
tell me
it's really up to you
have you got the time to find out who I really am
