

Sonic Youth, Moon In The Bathroom

Every time I look at my life I think of you
Every time I look at you I wonder, what to do
So let's go, go away, go
Let's go, I don't wanna stay any longer

God knows that you're my brother
Gotta a funny idea that there is no other
You know we have to make it - really last
Have to make it happen - really fast
Let's go, go away, go
Let's go, I don't wanna stay any longer

If we could just know where we'd come from
Maybe we could figure out something to do
All I know now we're together
And something tells me we might live forever
So let's go, go away, go
Let's go, I don't wanna stay any longer

Every time I look at you I wonder what to [12x]
