

Sonic Youth, Orange Roll, Angel's Spit

[Kim]

she got you, got you good
didn't have a chance
pretty lady put you in
where had messed again [?]

oh baby don't you know
you're livin' on the death
you better stay away
if you wanna live

lalalalalalalalaaaaah
lalalalalalalalaaaaah

every time you turn around she is making up with you and down below

oooh sugar pie
mmm come on
chocolate spot

she gotta gotta go
don't you even know
she looks into your eyes
angels wanna go [?]

she takes the long stride
leave your mind again
don't worry you are fine
living with a mess

lalalalalalalalaaaaah
lalalalalalalalaaaaah

every time you turn around she is looking up at you and down below

sugar crick
candy tic
orange rolls
angel's spit

what you got has got you good
don't you even try
come on if you could
you would surely die

you don't don't you know
you don't even know
come on sugar tic
you all got to go

lalalalalalalalaaaaah
lalalalalalalalaaaaah

every time you turn around she is looking up at you and down below

come and die
chocolate spot
sugar
don't you know
deep in my heart
saying g'bye
