

# Sonic Youth, Stalker

Got me prowling like a police car  
I'm stalkin' and walkin' you're my movie star  
I know your trailer it glows in the dark  
You got that certain something that special spark

I wanna know  
What you think of this idea  
You and me and no-one else  
Your friends at work will disappear  
And that guy you're with he was never there  
Every night rewind the dream  
Tv static sex in flame  
You know it's harder all the time  
Its comin' down real fast in my mind  
I will not live without you you you

I gotta give my whole life  
I'm comin' knockin' at your door  
Hear you walkin' cross the floor  
Now i know where my ambition lies  
My love it's right between your eyes  
I love you  
I gotta love you  
I'll get you  
I gotta get you  
Yeh i got you
