

Sonny & Cher, Got To Get You Into My Life

I was alone I took a ride
I didn't know what I'd find there
Another road maybe I could
See a different kind of life there
Then I suddenly see you
I tell you that I needed you
Every single day of my life

You didn't run, you didn't hide
I wanted just to hold you
Had I gone I knew in time
We meet again for I had told you
You were meant to be near me
And I want you to hear me
That we'll be together every day

I gotta get you into my life
I gotta get you into my life
I gotta get you into my life
Gotta get you into my life
