

Sonny & Cher, I Look For You

I look for you
Because I didn't care
Because I went no where
That's why I look for you

My state of mind
Was really out of line
And I caught me crying
That's why I look for you

Yes I look for you
And all the things you do
The way you make me feel
That's why I look for you
That's why I held my hands up high
You could hear me
You could hear me cry

I look for you
Until my dreams came true
Until I could feel
That you were real

I look for you
Because you made my life
Because we're man and wife
That's why I look for you

Yes I look for you
For all the things you do
That's why I look for you
That's why I held my hands up high
You could hear me cry
That's why I look for you
Because you made my life
Because we're man and wife
That's why I look for you
That's why I look for you
That's why I look for you

I didn't care
Cause I went no where
That's why I look for you
