Sonny & Cher, It's Gonna Rain

It's gonna rain outside I can tell by the clouds In the sky whoa, whoa Uh-uh oh uh-uh

You used to come
And see me baby all the time
People see you walking down the street
They say you were mine
We use to love each other baby
Ah that's all
Well I can still remember
Your skin so soft

It's gonna rain outside I can tell by the clouds In the sky whoa, whoa Uh-uh oh uh-uh

You would come and see me Baby gave you all I had to give Sometimes when you left me I didn't know if I was gonna live Used to watch the suns come up And the moons go down We used to take off our shoes And stamp our feet in the ground Oh yeah
