

# Sons And Daughters, Dance Me In

Dance me in  
Show me the first part  
I'll pay close detail  
To every note in every chart

An escaped voice speaks from the corner of the room  
It's avoiding the plans  
Sneaking past the narrow truth  
Everyone else follows through

You speak for all men  
The hopeless telling of sorries cling to your lungs  
In the print of tomorrow what reminds me of them does not remind me of yours  
Remind me of the young

Just dance me in  
Just dance me in  
Just dance me in  
Dance me in  
Dance me in

You speak for all men  
The hopeless telling of sorries cling to your lungs  
In the print of tomorrow what reminds me of them does not remind me of yours  
Remind me of the young

Just dance me in  
Just dance me in  
Just dance me in  
Dance me in  
Dance me in

Lose on both sides until there are two  
I'm sat at the last table  
My talk wearing thin  
I'll wait for answers  
I'll wait for answers  
Just dance me in  
Dance me in

Just dance me in  
Just dance me in  
Just dance me in  
Dance me in  
Dance me in
