

Sons Of Ishmael, Evolution Is For Turkeys

Swaggart's sermon also included an attack on Darwin's theory of evolution:

"The most asinine, idiotic, stupid, illiterate lie that's ever been told is the poor lie of evolution - that 10 billion years ago you wiggled out of a primordial ooze", he said.

Evolution is for turkeys.

"And what do you know, it grew a tail and hung from a tree and it was me ... That's what the turkeys tell us ... It makes me sick."

Evolution is for turkeys.

"Isn't it much easier to believe that in the beginning God made the heavens and the earth? Isn't that easier to believe?"

Evolution is for turkeys.
