

# Sons Of The Desert, Too Far To Where You Are

I start dreaming driving home  
About having you alone  
I know that you'll be there for me  
But in my favorite fantasy  
You won't be

Across the street, across the room, a step away  
Well that's just too far for me  
To feel you breathe each time you lay  
Your head on my shoulder  
Say that we will never be apart  
'Cause if you're not in my arms  
It's way too far to where you are

When you're away that's when I see  
If I can't find you I can't find me  
My light goes out, my darkness shows  
When I need you I need you close  
And I mean close

Across the street, across the room, a step away  
Well that's just too far for me  
To feel you breathe each time you lay  
Your head on my shoulder  
Say that we will never be apart  
'Cause if you're not in my arms  
It's way too far to where you are
