

# Sonya Kitchell, Think Of You

You're like a breath of fresh air  
Everytime I'm 'round you  
You take away all my despair

Anytime I'm feelin' down or blue  
Baby, all I got to do is think about you

You're like the gentle kiss of the rain  
Everytime I'm with you  
You wash away all my pain

Anytime I'm feelin' down or blue  
Honey, all I got to do is think about you

I would do anything  
I would do everything  
I would do anything just to be with you  
I would go anywhere just to know you You were there  
I would go anywhere just to be with you

You're like the spark of the fire  
You can do long my, my desire

Anytime time I'm feeling down or blue  
Honey, all I got to do is think about you  
If I'm feeling down or blue  
I think about you  
I think about you

Don't you know, don't you know  
I'm thinking about you  
Don't you know, don't you know  
I think about you
