

Sophia, Weightless

Give me black
Or give me white
Give me wrong
Or give me right
Sweep away the in-between
And help me make my choices easy

Give me love
Or give me hate
Give me anything that's not just ok
Make me laugh
Or make me cry
Something
Anything
To feel alive

Is this week's obsession just a reason to exist?
Do I really need the conflict or just something to resist?
