

# Sophie B. Hawkins, Let Me Love You Up

Baby I dreamed of you last night  
It was a lovely dream all right  
I wish that this one could come true  
'Cause it was made for me and you  
So I'm a Scorpio and Scorpios know  
What is soon to come  
How can I help who I am  
It's the truth I'm no lamb  
But I won't do you no harm  
Let me love let me love let me love let me love you up  
Let me love let me love let me love let me love you up  
Te souviens-tu de la nuit du mane  
Pour moi e'etait vrai happiness  
And it could only be shared by us two  
Comme une bissou  
Tu me manques tu me manques  
Tu me donnes des frissons  
Don't be long j'ai besoin de tu  
Enchant e'est Paris  
Au revoir e'est la vie  
But I won't let go of you  
Let me love let me love let me love let me love you up  
Aah doucement oui  
Let me love let me love let me love let me love you up  
Maintenant ici  
Let me love let me love let me love let me love you up  
S'il te pla  
Let me love let me love let me love let me love you up  
Aaah mon coeur franis  
I don't care  
Tous sont juste l'amour et la guerre  
How can we speak of love that runs so deep  
Sssh, secretly  
Let me love let me love let me love let me love you up  
Aah doucement oui  
Let me love let me love let me love let me love you up  
Maintenant ici  
Let me love let me love let me love let me love you up.....
