

Sophie Barker, Secret

Do you wanna let me into your soul
Do you want to show me secrets I don't know

Do you me to part with all my love
Stab myself in the heart
Give you all my blood

Don't treat me like a fool
I'm more intelligent than you
You may have partially succeeded in breaking me in two
But at least I have a heart a mind and a soul

Do you want to show me I can trust you
Do you want to hold me before I leave you
Did I ever tell you that you're wasting my time
Did I ever mention I can't see you for a while

Don't treat me like a fool
I'm more intelligent than you
You may have partially succeeded in breaking me in two
But at least I have a heart a mind and a soul

Do you wanna let me into your soul
Do you wanna let me into your soul
Do you wanna let me into your soul
Do you wanna let me into your soul

Don't treat me like a fool
I'm more intelligent than you
You may have partially succeeded in breaking me in two
But at least I have a heart a mind and a soul

Do you wanna let me into your soul
Do you wanna let me into your soul
Do you wanna let me into your soul
Do you wanna let me into your soul

Don't treat me like a fool
I'm more intelligent than you
You may have partially succeeded in breaking me in two
But at least I have a heart a mind and a soul
