

# Sophie Barker, Wintertime

You only come and see me in the winter time  
Snuggle up behind me to keep from the cold but once the first light  
Shows it's face I can't find you any place I 'm all alone  
And when you are near you say you never want to leave holding me  
Close making me believe that maybe one day you wont leave me  
Alone, all alone

And if I cry don't look on by just be here for a while  
And in my time I will shine and you will follow me

Dawn is nearly breaking and the warmth fills the room I know as I lie  
Here you'll be gone soon and as hard as I try you'll still say goodbye  
And I'll be alone all alone

And if I cry don't look on by just be here for a while  
And in my time I will shine and you will follow me...
