

Sophie Ellis-Bextor, Love It Is Love

I can't believe it's happened to me
Taken over so completely
I was content but nevertheless
You've changed my life for the best

I want to hold you 'til I lose time
I never want to be back in my mind

The way that I'm feeling
Love it is love
Keep on with the feeling
Love it is love
Begins without thinking
Befriends with a touch
Keep on with the feeling
Love it is love

So all a sudden stupid makes sense
I succumb and I've no defence
You make me happy inside I dance
Never stopping, fuel is a glance

I've fallen deeper and I am the girl
I used to want to be you spin my world
Onward motion, pure devotion
I thought I knew my heart was lone and stark
But baby oh
You've moved within me
Never go never go never go never go
