

# Sophie Ellis-Bextor, Music Gets The Best Of Me

Music gets the best of me  
But guess who gets the rest of me  
And there's no need for jealousy  
Music gets the best of me

I've got to tell you something  
You're not my first ever love  
Men come and go I've noticed  
But my first love's going strong  
He swept me off my feet strong  
With melody and simple beat strong  
A touch and I feel complete  
Music is my love, you see yeah

Music gets the best of me  
But guess who gets the rest of you  
And there's no need for jealousy  
Music gets the best of me

Without the beats I'm nothing  
Without a song in my heart  
I'd be a different girlfriend  
But we're all here so let's start  
The things he says are always true start  
He's never going to change his tune start  
And though you're still the boy for me  
Music is my life, you see yeah

Music gets the best of me  
But guess who gets the rest of me  
And there's no need for jealousy  
Music gets the best of me  
If someone held you with a gun  
You know I'd make you number one  
I need you both to get along  
Music gets the best of me

Oh my baby  
You know you make me smile  
But it's the music we're making  
That's really driving me wiiiiiiiiiiiiidd  
I cant help it baby

Music gets the best of me  
But guess who gets the rest of me  
And there's no need for jealousy  
Music gets the best of me  
And if someone held you with a gun  
You know I'd make you number one  
I need you both to get along  
Music gets the best of me  
I cant help it baby  
but music gets the best of me
